

SUMMARY
Vance County Transportation Advisory Committee
April 19, 2011 – 10:00 AM
Kerr-Tar COG Building – Green Room
Henderson, North Carolina

Attendees:

- Ann Hudson – KARTS
- Tom McKay – Vance County Planning and Development
- Jordan McMillen – Vance County Planning and Development
- Major Charles Sparrow – Vance County Sheriff's Office
- Nancy Wilson – Vance County Tourism
- Claiborne Woods – Vance County Schools
- Agnes Harvin – Vance County Planning Board
- Mike Ciriello – Kerr-Tar COG
- Scott Walston – NCDOT Planning Branch
- Lauren Nicholls – NCDOT Planning Branch
- Geoff Sloop – NCDOT Planning Branch

It was noted that the Committee meeting scheduled for May 17th will be canceled and we will reconvene in June. We will be discussing road growth rates, crash data, survey results and possibly roadway recommendations.

Mike Ciriello brought several copies of the surveys and flyers to distribute throughout the county. The surveys will be due on May 31, 2011. All paper surveys that are collected can be returned to Mike Ciriello.

The vision and goals statement was updated with Nancy's suggestions and reviewed a final time.

Roadway growth rates were discussed by the group. Lauren Nicholls explained the Excel spreadsheet along with the map. The group decided to use the average annual daily traffic (AADT) from the year 2007. A growth rate of 2.5% is the average for the state while a 4% growth rate is considered high. It was also noted that if there is known growth (new developments, schools, etc.) coming to an area, we can add the anticipated traffic to our traffic counts when estimating for future AADT. Kelly Road and Glebe Road were added to the studied roads.

Crash data for the county which highlighted intersections and sections of the road with high crash rates was reviewed by the group. The group was asked to review the data and look at whether there was anything that needed to be added to the lists.

Meeting adjourned at 11:00 a.m.
